

Waste watch col StHd

Hi folks, hope you all had a great Thanksgiving. As I write this, I watch the steady flow of cars entering the station on a Saturday. Saturdays are very busy as folks from our five towns take advantage of a day off to get their household trash and recyclables disposed of.

This being said, please keep in mind when you're parked in front of hoppers or in the lanes in front of the office, please don't sit and talk on your cellphone. You can pull ahead out of the way and allow others to proceed.

On windy days you may find only one side of the mixed paper can open. This is so we don't have paper blowing out. If you open a door to toss your paper in, please close it up. We pride ourselves in being a clean facility.

Again we thank all of you who dropped off snacks for us.

Just a reminder, as of Dec. 1 there will be a slight increase in the cost of disposing of a few items, such as tires, tires on rims, mattresses, rugs, couches, etc.
